3. ART AS A BRIDGE TO PEACE

The third Mediterranean Biennale in Sakhnin aims to establish a regional environment of art, culture and coexistence. Featured artists include Fiona Tan, Moshe Gershuni, Damien Hirst and Sigalit Landau. In a unique twist on regular art events, the various works will not be exhibited in only art galleries or museums but in places of work and local attractions, including butcher and fish shops, as well as local organizations and even the town hall.

**Runs today through December 26. For more info: www.mediterraneanbiennale.com**
